NUTRIOLA CO., Chicago.

### H. P. DUNN & CO. Special Agents.

#### NATHAN UNDER ARREST.

Accused of Murdering His Sweetheart at Boston.

Pittsburg, Oct. 30.—After a long and searching examination at police headquarters lasting until after 1 o'clock a. m., Morris Nathan, secretary to the manager of the "Shepherd King" company, was held on a charge of murdering his sweetheart, Miss Susan Geary, the victim of the Winthrop suit case mystery, which has been puzzling the Boston authorities for more than a month.

Superintendent of Detectives Thomas A. McQuaid and Superintendent of Police Alexander Wallace received instructions at night from Superintendent of Police W. A. Pierce of Boston to apprehend Nathan and find out what he knew about the disappearance of the girl.

Nathan was arrested, after a search of several hours, in the Hotel Henry, and taken to police headquarters.

Nathan sticks to his story that he has not seen the girl since he escorted her to a subway station on the night of Sept. 9.

Rugs, art squares and go-carts. Largest line in city. D. M. Clark & Co.

## CRISIS IS IMMINENT

SITUATION IN RUSSIA SEEMS TO BE CONSTANTLY GROWING MORE SERIOUS.

EVEN TROOPS ARE DISLOYAL

EMPEROR NICHOLAS STILL HESITATING AS TO WHAT COURSE HE SHALL PURSUE.

St. Petersburg, Oct. 30.—While the day passed quietly, without bloodshed in the Russian capital and while the city is outwardly calm, developments all indicate that a crisis is imminent. Although the streets are filled with troops and reinforcements are now pouring in from Finland, the government seems utterly powerless to cope with the situation and many calm observers seem seriously to believe that the present regime is tottering to its fall.

Differences have developed between count Witte and General Trepoff, and while the precious moments pass the emperor, surrounded by the imperial family, remains shut up at Peterhof, seemingly still hesitating as to what course to pursue.

Grave doubts are expressed as to whether even the imperial guard can now be relied upon. Discontent is rife. Early in the morning the Fourteenth and Eighteenth equipages of sailors of the guard, who have been shut up like prisoners in barracks on the Moska canal, demolished the windows and furniture, and in the afternoon a detachment consisting of four officers of the guard went to the lawyers' assembly and told the barristers that many officers and a large part of the troops were disgusted with the government and ready to enlist in the movement for freedom. They asked for aid toward effecting organization and said they had discussed among themselves the question of resigning, but decided to show that people in uniform could help to achieve liberties. Even the Cossack patrols in keeping fliers moving in the streets during the day seemed careful not to use their whips and simply drove the crowds along before their advancing horses.

#### Strikers Present Demands.

A meeting of the municipal council was held during the evening, at which a deputation of thirty members of the strikers' committee appeared. In an impassioned speech the leader of the deputation presented the following demands of the workmen and affiliated organizations:

First—A constitution and political liberty.

Second—That the city furnish food to the workmen.

Third—That the city refuse further supplies to the troops and the police.

Fourth—That the troops be removed from the waterworks or otherwise the strikers would cut the water supply.

Fifth—The immunity of the deputation from arrest.

The council granted this last demand and promised to reply to the other demands during the day. The council sent requests to both General Trepoff and Minister of the Interior Bouligh not to arrest the members of the deputation, but the police nevertheless took them into custody. Upon urgent representations, General Trepoff an hour later released them.

The people are extremely nervous and bordering on panic and are easy victims of every sensational rumor. Among countless baseless reports which received credence were that the emperor had embarked on a vessel and fled to Denmark; that General Trepoff had been killed by a bomb and that Vice Admiral Birleff had been assassinated by mutineers in the Black sea.

#### Communication Has Ceased.

With a strike in the government postoffice, communication with the interior practically ceased. Government troops were placed in the telegraph office to replace the striking telegraphers, but only a few lines are working. Many lines, including the land lines to the continent and to Libau, where they connect with the cable, have been cut. At 10 o'clock, however, the cable by way of Nystad and Sweden was still open. This is now the only thread connecting Russia with the outer world. Admiral Durnovo, superintendent of posts and telegraphs, told the representative of a European power that he could not tell how long cable communication with the continent would last.

The foreign embassies have discussed the situation, but have as yet taken no steps regarding the safety of foreign residents. As a precaution the state department at Washington has been requested to confer authority for the charter of a vessel and to hoist on it the American flag as a refuge for Americans.

The negotiations for a new loan have been adjourned, as neither the govern-

ment nor the bankers are prepared to close the negotiations while the present situation continues.

The university, the polytechnic institute and all educational institutions have been closed so as to prevent further meetings being held in them. The university and the polytechnic institute are surrounded by troops and the students and professors are kept within the confines of the institutions.

Even the druggists have struck, and as there are many sick the physicians have divided the city into districts and

also have selected stations for the giving of first aid to the injured in case of collisions between the troops and the people.

Such news as comes from the interior shows no improvement in the situation. The government everywhere seems powerless to break the political strike.

At Kharkoff order was restored only after the governor had formally instructed the troops not to fire, and upon the demand of the "black heads" at Reval the soldiers were sent out of that city and the place left in charge of local militia, which had been organized by the citizens.

#### The News From Moscow.

Most interesting by far, however, is the news from Moscow, the real Russian capital, where, according to private reports, the municipal council and the committee of public safety are sitting continuously and where a struggle is momentarily expected between the "League of Russian Patriots," a reactionary organization led by the priests, and the newly organized militia and students. The Moscow municipal council is also reported to have sent an ultimatum demanding the promulgation of a constitution.

Although it is impossible officially to confirm these reports they seem to admit of no doubt that the anti-government forces have the upper hand.

The government is no longer in communication with the forces in the far East, except by cable, by way of China. The situation cannot well be exaggerated.

With the present indecision of the emperor, the government has neither a head nor a policy to meet the crisis and things seem to be drifting toward anarchy. The revolutionists openly declare the government has ceased to exist and that nothing remains to his majesty except to abdicate. With a firm hand at the helm and a rational policy, however, all might quickly be changed.

The strikers apparently are without funds and must soon be exhausted as was made evident by the action of the strike committee here practically being forced to hold up the city for food.

Many meetings were held at night in various quarters of the city, at which the workmen, encouraged by the success of the movement, were in a jubilant and confident spirit. The better class as a rule are keeping closely to their homes.

The government and the Liberals are at a loss to know whose is the controlling brain behind the great strike. The directing hand is invisible, though its workings are plainly evident. It is thought that the strike may have been directed from Switzerland or Germany and executed here through the Social Democratic organization, in which representatives of the workmen and the students are equally active.

#### CZAR ACCEPTS PROGRAMME.

Agrees to Liberal Demands and Appoints Witte Premier.

London, Oct. 30.—The Daily Telegraph's St. Petersburg correspondent says:

"I am informed that the emperor has just accepted the Liberal programme, appointed Count Witte premier and given legislative powers to the representative assembly, allowing representatives from all sections of the population to be elected to it and abolishing martial law throughout the empire."

"I am further informed that the emperor will soon issue a manifesto to the people."

#### FIRE WITHOUT WARNING.

Troops at Odessa Kill Twenty and Wound Sixty Persons.

London, Oct. 30.—A dispatch to the Standard from Odessa says:

"A collision between the military and a crowd of students and strikers occurred in Tyraspoloskays street. The soldiers, without warning, fired point blank into the people, killing twenty and wounding sixty."

#### Nineteen Men Wounded.

Moscow, Oct. 30.—Nineteen wounded men have been brought to the university hospital as the result of an encounter between students and royalists.

#### YELLOW FEVER SITUATION.

Only Two New Cases and One Death at New Orleans.

New Orleans, Oct. 30.—Following is the official yellow fever report up to 6 p. m.: New cases, 2; total, 3,389; deaths, 1; total, 444; new focus, 1; cases under treatment, 28; cases discharged, 2,917.

An impressive thanksgiving service was held at Trinity church because of the abatement of the yellow fever epidemic and it was largely attended.

## H. F. MICHAEL CO'S Daily Store News

### Tomorrow, a much larger line of Children's

### Coats than we shall show again this season

A manufacturer, quite anxious for our business, has sent us a large line of Misses fine coats on consignment. The lot reached us this morning and as a consequence we can show twenty-five styles in Misses coats alone. There is a varied selection, ranging in price from \$4.50 to \$16.50. The color assortment is good too as we have a wide variety of colorings.

**NOW ANOTHER WORD:** It is impossible to carry such a full line all the time. A city the size of Brainerd cannot support it. However, it will be yours to select from for a few days. Why not come out while it is possible to secure such a large selection. If you are not ready for the coat we will reserve it for you until you are.

### Children's Cloth Caps 1-3 off

Just another of the bargains so characteristic of our store. These are all late fall styles, are the best colorings to be had and sell from 35c to \$1.50 regularly. Tuesday your choice 1/2 off regular price.

### Can you resist these prices?

<b>BLANKETS</b> —A full size cotton blanket selling regularly at 79c. for Tuesday only.....	<b>62c</b>
<b>COMFORTERS</b> —A large comforter filled with nice clean cotton batting sells at \$1.75, Tuesday only.....	<b>\$1.39</b>

## CITY LOST MILLIONS

CONTRACTORS ARE SAID TO HAVE LOOTED THE TREASURY OF PHILADELPHIA.

**VARIETY OF METHODS USED**  
**OVER SIX MILLION DOLLARS OBTAINED FROM THE CITY BY DISHONEST MEANS.**

Philadelphia, Oct. 30.—The report of the board of investigating engineers appointed last July by Mayor Weaver to examine the filtration system of the city and the northeast and southern boulevards now under construction, which report was submitted to the mayor Saturday, was made public during the day. It is signed by Major Cassius E. Gillette of the United States engineer corps, who investigated the Savannah harbor frauds, and John Donald MacLennan of Washington, D. C. The report shows that up to date the city has lost through excessive costs, collusive bids, illegal advertisements and in other ways the sum of \$6,330,000. The contractors who received most of the more than \$18,000,000 that have been expended on improvements are D. J. McNichol & Co., James J. Ryan and John A. Kelley and Vare Bros. The members of the McNichol firm are Israel W. Durham, leader of the local Republican organization; State Senator J. P. McNichol, also a city leader, and the latter's brother, Daniel. The Vare firm is made up of State Senator George A. Vare and Edwin H. Vare. Their brother, William S. Vare, is recorder of deeds, an elective office.

#### The Officials Held Responsible.

The officials held responsible by the report for some of the conditions in connection with the filtration system are William C. Haddock, who was director of public works under Mayor Ashbridge; Peter E. Costello, director of public works under Mayor Weaver until last May, when the mayor dismissed him, and John W. Hill, former chief of the bureau of filtration, who is awaiting trial on charges of fraud and falsification of records in connection with the construction of the filtration system.

The report says: "Omitting from construction all small contracts—say under \$30,000—we find for the filtration work and the two boulevards as constructed up to date, the city has paid or pledged \$18,761,541. First-class work under the specifications should not have cost over \$12,430,000, which includes an allowance of 20 per cent, or \$2,075,208, for legitimate contractors' profits. The difference is \$6,330,000. In other words, \$18,760,000 in round numbers has been paid for work costing the contractors \$12,435,000. "Of the \$6,330,000 excessive cost

there has gone to the contractors who worked under the name of D. J. McNichol, \$5,065,122; similarly to Ryan and Kelley, \$543,890, and to Vare Bros., \$89,128. Of the \$18,761,541 there remains unpaid about \$568,000 to McNichol, and \$75,000 to Ryan and Kelley."

The report says some of these contracts are incomplete and if finished according to contract will cause the city further losses to the city aggregating \$3,217,000.

#### Work of an Inferior Grade.

Much of the work done, the report says, is not first-class, that which shows prominently to the public being well done, but that in secluded places being second-class or worse.

One of the means by which excessive profits were made possible, the report says, was by not permitting fair competition. The advertising was wholly inadequate; scarcely more than a pretense and everything possible was done to avoid any real publicity without letting that fact appear too prominently in the records. The bureau's preliminary estimates, instead of being freely furnished to bidders, were rigorously guarded secrets, so far as the general bidder was concerned, except that they were furnished in the specifications for filtration materials where they were very little needed. The specifications in many particulars were unfair to bidders and gave excessive and unnecessary power to the city officials. In short, the specifications were so drawn that the engineer in charge could harass an unwelcome contractor to an almost unlimited extent without the contractor being able to prevent it or secure legal redress.

The report goes into detail to show how contracts were let to favored bidders and how other methods were used to help favored contractors. McNichol, the report says, could have been assessed for liquidated damages for over time on contracts about \$532,000, but he was assessed only \$3,255.

The report says the filtration system ought to have been completed on Jan. 1, 1904, and that since that time about 1,200 deaths have been caused from typhoid fever that would not have occurred had the system been completed when it should have been.

#### Shoots His Wife and Ends His Life.

Marquette, Mich., Oct. 30.—Edward Rebel, late of Grand Marais, shot his wife five times at Munising, Alger county, and, leaving her for dead, jumped from a dock and drowned himself in Munising bay. The woman is expected to recover.

#### Enormous Crowd Present.

Genoa, Oct. 30.—King Victor Emmanuel laid the cornerstone of the new harbor works during the day. Over 500,000 spectators were present and in the harbor were forty-three warships, including the United States cruiser Minneapolis and the French and British squadrons. It is estimated that the new works will cost \$15,000,000.

#### Succeeds Archbishop Chapelle.

Rome, Oct. 30.—Monsignor Giuseppe Aversa, under secretary of the congregation for extraordinary ecclesiastical affairs, has been appointed apostolic delegate to Cuba and Porto Rico in succession to the late Archbishop Chapelle.

## SIX PERSONS KILLED

MINOR OFFICIALS OF A COAL COMPANY PERISH IN A MINE AT HAZEL KIRK, PA.

Pittsburg, Oct. 30.—Five minor officials of the Pittsburg and Westmoreland Coal company gave up their lives at 12:30 o'clock a. m., when they entered the Hazel Kirk mine No. 1 of the company at Hazel Kirk, Pa., eighteen miles east of this city, to ascertain if a portion of the mine was still burning as a result of an explosion two weeks ago. The dead are:

John Hornical, superintendent; Daniel Griffith, foreman; James Hunter, John Lavey and Henry Clay Borne, fire bosses.

All were married with large families and were men of considerable means.

Two weeks ago an explosion in the mine caused the death of two men. The entry in which the explosion occurred was closed up and water turned on. Instead of sending foreign-born miners employed by the company to investigate and see if the fire in the entry had been extinguished it was decided that if any risk was to be taken those holding responsible positions should take the chance. As the five men approached the portion of the mine which is burning they became aware that the water had not extinguished the blaze. They decided to tear down the bulkhead erected to confine the fire to one entry of the mine. Just as the covering was removed there was a terrific explosion and the five men were killed.

Andrew Rogers, who was some distance behind the unfortunate men, escaped instant death, but was so badly burned that he died a few hours later.

John B. Hornical, the dead superintendent, was one of the original owners of the Hazel Kirk mines No. 1 and No. 2 and is reported to have received nearly \$1,000,000 for his holdings at the time the corporation was formed.

The mine is on fire and those in charge say the damage will reach thousands of dollars and the mine may be doomed. The mine's capacity is 100 cars a day and 500 men are employed.

#### ONE DEAD AND TWO HURT.

**A Dozen Others Narrowly Escape Death by Fire.**

Raleigh, N. C., Oct. 30.—Three persons were seriously injured, one of whom, John Glavish, subsequently died, and a dozen others had a narrow escape from the flames in a fire that destroyed the priest's house at Nazareth orphanage, a Catholic boys' institution three miles from Raleigh, early in the morning. The fire broke out between 2 and 3 o'clock a. m. and spread rapidly. Twelve persons in the building escaped by jumping from the second and third-story windows. The property loss is over \$25,000.

#### Snow in the Northwest.

Denver, Oct. 30.—A wet snow began falling late in the afternoon and the storm was in full sway at night in Wyoming, Western Nebraska and South Dakota. In Colorado only the Eastern slope is affected.

# THE DAILY DISPATCH.

One Month..... Forty Cents  
One Year..... Four Dollars

MONDAY, OCTOBER 30, 1905.

## LOCAL NEWS NOTES.

Eugene Smith left for the north today.

Fred Parker went to Parkerville this afternoon.

Mrs. Butler returned to her home in Pequot this afternoon.

John Gilmer returned from a business trip north this afternoon.

Miss Anna Nelson left for Sylvan this afternoon for a few days visit.

Editor Silk, of Pine River, came down from the north this afternoon.

Attorney Frank Hall, of Aitkin, was in the city today on business.

H. C. Irwin, the St. Cloud mill man, is in the city this afternoon calling on the trade.

Fred Hoffman returned this afternoon from Sauk Centre where he went on business.

Miss Nancy Christianson went to her home at Merrifield yesterday afternoon for a brief visit.

Mr. and Mrs. Case, of Walker, passed through the city this afternoon en route to the twin cities.

Rev. E. P. Kuhl left for Minneapolis this afternoon to attend the big Chapman meetings for the week.

Frank Hall, Frank Maloney and G. H. Warner returned from Hubert this afternoon where they hunted for a day.

Mrs. Jud LaMoure came down from Smiley this noon. Mr. LaMoure is in North Dakota attending to some business matters.

Miss Alice Claus left this afternoon for Tacoma to join her father. Mrs. Claus and the other children will leave for the west later.

Mrs. L. C. Biersborn, of Liscomb, Ia., who has been visiting with her daughter, Mrs. H. Hitch, left this afternoon for her home.

Mrs. Frank Bell, of St. Paul, arrived in the city this afternoon for a visit with Mrs. J. N. Nevers before the latter leaves for the coast.

Judge McClenahan and Court Reporter Moody left for Bemidji this afternoon where they will hold a special term of court to try court cases.

Mr. and Mrs. J. N. Nevers are packing their household goods and they expect to be able to vacate their home about the first of the month.

The Ladies' Aid society, of the Presbyterian church, will meet with Mrs. C. L. Burnett, 723, North Broadway, on Wednesday afternoon, Nov. 1.

Little Miss Maude Williams while leaving the First M. E. church yesterday after Sunday School slipped on the sidewalk and in her fall broke her arm.

On Saturday evening there was a very pleasant gathering of young folks at the home of Mrs. W. R. Hawkins. Delightful refreshments were served and the evening was spent in playing games, etc.

The marriage of Mr. J. A. Harding and Miss Annette LaRose Butler was solemnized at Aitkin on Thursday. Mr. Harding was formerly connected with the Arlington in this city but is now manager of the Fletcher house at Staples.

The football team from the high school that went to Aitkin on Saturday afternoon were beaten by a score of 40 to 6. The boys from Brainerd hardly expected to have such a big score piled up against them. The Aitkin team, however, is heavy and fast and the locals were lucky to even score on the team.

M. P. Orchard, of the local N. P. force received a telegram yesterday that his father who sustained a stroke of paralysis about a week ago was very low at Duluth. Mr. Orchard went to Duluth yesterday afternoon, returning this morning. His father he thinks cannot live but a few days, but he was obliged to return to the city.

## REV. G. W. GALLAGHER

Writes to Home Paper at Lockport, N. Y.

From Geddes, S. D., Where He Has Evidently Located

The Lockport Union-Sun has a long letter from Rev. G. W. Gallagher, who writes from Geddes, S. D., where he is evidently now located. He writes of the enterprise of Geddes and says that he rather enjoys the change.

Foley's Honey and Tar contains no opiates and can safely be given to children. H. P. Dunn & Co. mwfwm

## FIRE IN HALIFAX HARBOR.

British Government Property on Gorges Island Destroyed.

Halifax, N. S., Oct. 29.—A spectacular fire which destroyed British government property valued at \$100,000 on Gorges Island in the center of Halifax harbor, threatened to obliterate numerous masked batteries and magazines which constitute one of the most important groups of fortifications at this port. A row of wooden buildings 300 feet in length, which were used as storehouses and machine shops, were burned. In the magazines are stored several hundred thousand pounds of gun cotton and other explosives, but the absence of wind assured the military authorities and the men who assisted them to combat the flames that there was practically no danger in the magazines as the explosives were stored under ground on the opposite side of the island from where the fire was. The island, which is about two acres in area, is used exclusively for fortification works by the imperial government. The fire started in the machine shops from an unknown cause early in the evening and spread rapidly to numerous other buildings.

The price of a pretty face is \$1.00—three packages of Hollister's Rocky Mountain Tea. Brings red lips, bright eyes and lovely color. 35 cents, tea or tablets. H. P. Dunn & Co.

Daniel Sully, opera house tomorrow night.

Would Prosecute Insurance Men.

New York, Oct. 30.—In a statement just issued District Attorney Jerome announced that if re-elected he would apply to the board of estimate of New York city for money to retain Charles E. Hughes as special counsel to prosecute the insurance men if any were found guilty and that he would personally assist Mr. Hughes.

Lace curtains done up at 30c a pair at Laurel Steam Laundry. tf

## SUIT CASE MYSTERY

VICTIM OF STRANGE CRIME AT BOSTON IDENTIFIED AS A YOUNG ACTRESS.

## HER SWEETHEART ARRESTED

MAN TO WHOM SHE EXPECTED TO

BE MARRIED ACCUSED OF MURDERING HER.

Boston, Oct. 30.—That the dismembered body found in a suit case at Winthrop on Sept. 21 is that of Susan Geary of Cambridge, is the belief of the girl's family and friends and of the Boston police department.

Miss Geary, who was the daughter of Mr. and Mrs. J. D. Geary, was a chorus girl of the "Shepherd King" company and was known on the stage as Ethel Durrell. She was twenty-one years of age. Mrs. Geary during the day identified three rings taken from the right hand found in the second dress suit case picked up near New Charlestown bridge on Friday last as those worn by her daughter when she absented herself from the theatrical company on Sept. 10. Confirmation of Miss Geary's disappearance from the company came from Morris Nathan, secretary to the manager of the company, and to whom Miss Geary was engaged. Mr. Nathan is now in Pittsburgh. According to Nathan, Miss Geary parted from him on the best of terms the day after the company closed its last engagement in this city, and he supposed, he said, that he should see her at the next performance in Lowell on the following day. Instead, however, a message was received by the company's manager from P. A. Smith, M. D., Boston, which stated that "Miss Durrell" was suffering from stomach trouble and would be unable to report for several days.

## Actress Dropped Out of Sight.

Miss Geary dropped out of sight after that, and so far as the police are concerned, they have been unable to find anyone who either saw or communicated with the girl. Ten days later, on Sept. 21, a dress suitcase in which was the torso of a young woman, was found floating in the harbor near Winthrop Yacht club, about three miles below the city, and on Friday last another suit case containing the arms and legs of the victim was taken from the water off the city docks, near the New Charlestown bridge, over the Charles river. On the fingers of the right hand were three rings, which gave the police the first tangible clue in the case. It was then found that Mrs. Geary had a missing daughter whose description tallied with that of the suitcase victim. Mrs. Geary and her two daughters described the rings and afterward positively identified them as belonging to Susan Geary. The police then turned their attention to the search for the person responsible for the dismemberment of the body, but so far little progress in that direction has been made.

Mrs. Geary declared that when she last saw her daughter the latter complained of pains in her side and Mrs. Geary suggests that she might have been operated on for appendicitis, and that the doctor, being unsuccessful in the operation, cut her up.

Houses for Rent and Sale--Nettleton. 85tf

## A GREAT WEAPON.

Brainerd People Cannot Fail To Appreciate Its Value.

Only one weapon, To fight backache— The weapon that strikes the cause. Doan's Kidney Pills strikes the root. Their work in Brainerd proves it. You read of cures made years ago. And the cures were lasting cures. Read the following:

Philip O'Neil, of 516 Norwood St., Brainerd, Minn., says:

"Brainerd people have seen in the local papers the testimonial I gave in 1898, recommending Doan's Kidney Pills, and many times I have been called upon to corroborate that statement in personal interviews. My confidence in Doan's Kidney Pills has not been lessened during the past six years. It has shown itself equal to all the claims made for it. I was a sufferer for a long time from backache and pains in the loins. The kidney secretions were too frequent and much discolored. The trouble became worse and worse and nothing helped it until I got Doan's Kidney Pills at H. P. Dunn & Co.'s drug store. I used this remedy faithfully until the annoyance from the kidney secretions ceased and the pains and backache disappeared. The cure then effected has been most gratifying and altogether permanent."

For sale by all druggists. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

Trunks, grips and harness goods at D. M. Clark & Co.'s.

## Steamer and Bark Collide.

London, Oct. 2.—The Norwegian bark Astrid, bound to Langesund, and the German steamer Schaumburg, from Galveston for Hamburg, collided in Cuxhaven Roads. The bark sank, but all on board were saved. The steamer proceeded before it could be learned if she sustained any damage.

## SHOOTS HIS WIFE AND BABY.

Chicago Negro Also Fatally Wounds Another Person.

Chicago, Oct. 20.—Daniel Francis, a colored man, shot and fatally wounded his wife, wounded her baby, which she held in her arms, and fatally shot Dora Scroggs, a young woman who was with Mrs. Francis at the time. Francis and his wife separated some time ago, and her refusal to return to him caused the shooting.

Dora Scroggs died in a short time after being shot, and Mrs. Francis expired a short time after midnight.

## FIVE WOMEN BADLY BURNED.

Two of Them May Die From Their Injuries.

Newark, N. J., Oct. 28.—Five women were badly burned, two of them probably fatally, in a fire which destroyed the hardware factory of M. Gould Sons & Co. at night. The injured are Minnie Garrity, aged fifteen; Carrie Rummel, aged sixteen; Sadie Schafer, aged eighteen; Mary Schwench, aged eighteen, and Anna Glazer, aged fifteen.

The fire started just as the factory was about to close, when one of the girls upset a candle in a pot of lacquer, causing an explosion which set fire to her clothing and that of her four companions. The girls rushed screaming down stairs but were caught on the floor below by workmen who beat out the flames and carried them out of the building. The flames caused a property loss of about \$60,000.

## SHOT HIMSELF WHILE HUNTING

Harry Eugene Wilkins Killed  
Yesterday Morning while  
Duck Hunting

CHARGE THROUGH LEFT LUNG  
Was Brought to Town by Com-  
rade and Died at His Home  
At 1:15 P. M.

Harry Eugene Wilkins, age 17 years, a son of Mr. and Mrs. Eugene D. Wilkins, of East Brainerd, was accidentally shot and killed yesterday while out hunting with some of his comrades, and the incidents surrounding the accident are most appalling.

The deceased with Ernest Palmer, Will Ebbinger and Roy Nash left Brainerd yesterday morning about 6 o'clock for Tamarac lake to hunt ducks. They drove a rig and had aboard a duck boat. When they reached Tamarac lake they decided to go to a small lake just above there which was connected with Tamarac by a small brook. The team was tied at the foot of the creek and the boat was unloaded and young Wilkins and Ernest Palmer started up the creek with the boat, the other boys walked around through the woods. They reached the little round lake above Tamarac and rowed toward the center when they were about in the middle of the lake they struck a sandbar and just as they did a flock of ducks came over them. Palmer jumped out and went some distance from the boat on the sandbar and tried his aim at the ducks. Wilkins too was anxious to get a shot at the ducks and he reached for his gun which was laying with the barrel pointing toward him. The young man was left handed and it was with his left hand that he grabbed the gun. In pulling it towards him the hammer caught on something and in an instance a shot was heard and Wilkins fell head first from the boat, his head resting on the sandbar and his feet still in the boat. Young Palmer gave an alarm which called Roy Nash and Will Ebbinger to the scene. They waded through the water to the boat and did all they could to relieve the young man of the terrible suffering which he was undergoing.

The charge from the gun first took off a part of the young man's left hand and then followed the arm hitting him just a short distance above the left nipple. He got the full charge here and his left lung was literally torn to pieces. A hole the size of the bottom of an ordinary tomato can was bored into the young man's breast. He did not lose consciousness but directed the boys what to do as near as possible. They were three-quarters of a mile from where the team was hitched. The boys prepared an improvised stretcher using their coats for the purpose and as the brush at either side of the creek was too thick to walk through they waded down the creek carrying their injured companion with all care that they could possibly take. When they reached the team they had seven miles yet to come to Brainerd and they drove as rapidly as possible, arriving here about 10:30 o'clock.

The young man was taken to his home and Drs. J. A. Thabes and A. F. Groves were called. They arrived before the young man died, but on examination informed relatives that there was no hope. It was 9:30 o'clock when the accident occurred and the young man lived nearly five hours, three hours of which he was conscious.

He realized after he had reached home that the end was near and conversed with his relatives. He was anxious to see his mother, but she was unable to get to the bed side before death claimed its own as she was out some distance attending another sick relative.

The deceased was a boy among boys, and was highly respected and honored by all who knew him. He had worked for years for the Brainerd Lumber company and up to the time of his death was still employed in the planing mill. He was industrious, sober and upright in all his dealings. Just before he became unconscious he told his uncle, C. A. Wilkins, that he had \$20 coming at the mill and then told him what little he owed about town, which amounted to about \$10. He wanted him to pay these bills and give the balance of the money to his mother.

Mr. and Mrs. Wilkins have the sympathy of the entire community in their bereavement. The funeral services will be held on Wednesday afternoon at 3 o'clock from the First Baptist church. Mrs. Frank McArdle, a sister of E. D. and C. A. Wilkins, arrived in the city this noon from Minneapolis.

Healthy, happy babies. Mothers say that Hollister's Rocky Mountain Tea is the greatest baby medicine in the world. Makes them strong, well and active. 35 cents, tea or tablets. H. P. Dunn & Co.

Daniel Sully, opera house tomorrow night.

### A LITTLE ENTERPRISE

And Energy Put in the Business Has Helped Increase Business at the J. F. McGinnis Store

"It beats all what a little enterprise and energy will do for a man," remarked a fellow citizen as he stood on the streets today. He was referring to the J. F. McGinnis store where they are busy these days attending to the wants of the large number of customers. Mr. McGinnis is doing some great hustling and he says that they are coming his way now. He has been doing such big advertising and today he has a genuine "towncrier" out telling the people through the megaphone where to go and what to do.

Daniel Sully, opera house tomorrow night.

### FOLEY'S HONEY AND TAR

Cures croup and whooping cough.  
Cures hoarseness and bronchial troubles.  
Cures pneumonia and la grippe.  
H. P. Dunn & Co. mfwfwm

### Goose Hunting.

The following from the Wolford Mirror, of Wolford, N. D., regarding Charlie Nicholson's experience hunting geese, will be of interest to his many friends in this city:

"The bunch of shooters that went out last Sunday afternoon had the time of their lives even if they did only get three geese.

"They left here about four o'clock with Ole Thompson driving, and Al Way, E. E. Snyder, Charlie Nicholson, E. L. Thompson and Frank Marrs, all armed with repeaters and pump guns, occupying seats in the light wagon.

"On their return they told how they reached the lake in safety and found the geese so plentiful that when they were flying the flapping of their wings sounded like the roar of Niagara Falls. How Ole Thompson drove across a plowed field, under a flock with Al Way and Frank Marrs standing up in the wagon with their guns pointed skyward, the jolting being sufficient to discharge the shells. How Charlie Nicholson was thrown from the wagon and dented the surface of North Dakota with the front of his head without hurting either."

Would you like to have appendicitis? Of course not. No one does. But the only sure way to prevent it is to take Dr. Adler's Treatment once or twice a week. Don't take any risks. Johnson's Pharmacy.

## TRY TO PERSUADE THEM TO LEAVE

Indians at Mille Lacs Lake Said  
to Be in a Destitute Condi-  
tions at Present

PROVISION MADE FOR THEM

At White Earth But They Do Not  
Like to Leave Their Old  
Haunts

The 400 Indians now living around Milaca lake, and whose transfer to the White Earth reservation is desired by the United States government, are reported to be in a destitute condition.

Through a trader, Charles F. Malone, they ask that their annuity, which is due to be paid Minnesota Indians in a short time, given to them at Mille Lacs instead of White Earth, where Agent Michelet lives, and where the Indians should really be. The matter has been referred to the department at Washington.

Theodore H. Beuhner, an educated Indian, and cousin of Gus Beuhner, former editor of The Tomahawk, at White Earth, and assistant to Agent Michelet, passed through St. Cloud Friday on his way from White Earth to Mora, where he hopes to persuade many of the Indians to return with him to White Earth. They have been holding off for a long time, despite the fact that the government will give them free transportation to White Earth, 160 acres of land for every adult male; build them a house and give them such necessities as farming implements, a team of horses, wagons, sleds and cook stove.

Foley's Kidney Cure is a medicine free from poisons and will cure any case of kidney disease that is not beyond the reach of medicine. H. P. Dunn & Co. mfwfwm

### Varying Weight of the Body.

A physician points out that several fallacies are common with regard to the weight of the human body. The man who congratulates himself on his gain of several pounds in weight in a given period may have no cause for rejoicing, for he may be under a delusion. Very few persons, says the investigator, have any correct idea of their own weight. As a matter of fact, the weight of the body is continually changing owing to innumerable influences. On a warm day, after breakfast, a man will lose more than a third of a pound per hour. Seventy per cent of the body contains water, and its weight varies constantly. The inference to be drawn from the loss or gain of a pound or two may be mistrusted. Fluctuations of a few ounces are a sign that the body is in a healthy state.

### In the Days Before Sugar.

Once upon a time, when there was no such thing as sugar—lovers of lollipops, only think of it—bees were of much greater value than they are now, for honey was then the chief if not the only sweetener, and wax was largely used in the making of very fine candles for altars and royal banquets. Some of the laws of old Ireland so green and of little Wales dealt with the subject of bees, which shows how important as well as industrious were these busy insects. Every owner of bees was required to distribute some of his honey among his neighbors every third year. Why? Because his bees had gathered their honey from the opening flowers on his neighbor's lands. There was a nice sense of justice for you! And some there are that would like to see it applied all round, even in the present day.

## MUSIC AND DRAMA.

MR. DANIEL SULLY IN "OUR PASTOR"

The management takes pleasure in announcing the appearance of Mr. Daniel Sully, the eminent Irish actor and comedian, in his new comedy drama, "Our Pastor," which has been pronounced by press, pulpit and public to be the best play Mr. Sully has ever produced. "Our Pastor," as a play chronicles the history of a day's life in a frontier town in Western Idaho; during this brief period many exciting and interesting events occur and a story of absorbing interest is unfolded and brought to a happy climax.

As Father Daly, the priest, whose influence prevents a tragedy and straightens out the tangled threads of a triple romance, Mr. Sully has a role that fits him like the proverbial glove. He is supported by a strong, well-balanced company, every member of which has been carefully selected with a view to absolute perfection in every role. The complete scenic equipment and accessories are carried to insure an absolutely satisfactory production.

Mr. Sully and his company will present "Our Pastor" at the Brainerd opera house tomorrow night.

ADELAIDE THURSTON IN A NEW PLAY.

Few actresses who have visited this city in recent years have earned the right to a warmer welcome than has sweet little Adelaide Thurston, who comes to the Brainerd opera house in her new play, "The Triumph of Betty" next Saturday night, Nov. 4. Aside from the wide interest which is always awakened by the annual appearance of this dainty comedienne, this year the affair is given double importance as the occasion is a new play by W. A. Tremayne, and Irving Hall authors of "The Light of Other Days." In "The Triumph of Betty" the authors have endeavored to represent Miss Thurston as she really is and they have brought about humorous contrasts of manner simply by placing her in the midst of a rather narrow-minded circle of friends and acquaintances in a foreign country—where words and actions that are perfectly legitimate and right are looked upon with centure and suspicion, simply because they are out of the ordinary beaten course. How she by the sheer force of a wholesome personality and down right honesty of purpose triumphs over her enemies and traducers and brings happiness to all those who have loved and trusted her is told in an exceedingly interesting and at the same time humorous manner. Prices \$1, 75, 50 and 25 cents.

"A GIRL FROM SWEDEN."

"A Girl From Sweden" will be an early attraction at the Brainerd opera house. This has been running on the Walker Theatre company circuit and has been making good.

"THE HOLY CITY."

The religious drama, "The Holy City," will be seen at the Brainerd opera house with a powerful dramatic company and combined exhibitions allegorical, musical and splendidly equipped. "The Holy City" provides entertainment historical and intense. Announcement of the coming of this great play excites attention worthy of its cause.

Go to D. M. Clark & Co. for Linseed Oil, Machine Oil, Turpentine, Gasoline, Kerosene.

Scene from "Our Pastor" by Daniel Sully.

## Nervous Headache

The Cause of Much Suffering to  
Women is Permanently Cured  
When the System is Built  
up by

DR. A. W. CHASE'S NERVE PILLS.

When the head aches hard and throbs; when the neck and eyes grow stiff, the face flushes or grows deadly white; when any excitement or over effort brings on an attack of nervous headache so severe that it leaves you weak, trembly, shaky and utterly worthless for days, it is a certain indication that the nervous system is shattered—that resistive power is gone—that you need a medicine that will rebuild and resupply the lost nerve force, that will so strengthen you that you can resist and overcome these terrible seizures. Such a medicine is Dr. A. W. Chase's Nerve Pills, a medicine that does not relieve but goes to the root of the trouble and positively cures.

Mrs. John Fall of Fourth St., Toronto, O., Says:

"I like Dr. A. W. Chase's Nerve Pills because they cured my nervous sick headaches—these headaches used to play me out and leave me weak and nervous, the pain being so severe. My eyes used to get stiff and sore during the attack and the neck so stiff I could hardly turn it. The Nerve Pills, however, proved to be just what I needed and cured the attacks in a hurry. As a result I feel steady in nerves, physically strong and vigorous and in every way sound and well. This makes me feel I can't speak too highly of the medicine." 50 cents a box at dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N.Y. Portrait and signature of A. W. Chase, M. D., on every package.

For sale by H. P. Dunn & Co., Central Drug Store, Natl. Bank Block, Brainerd, Minn.

Daniel Sully, opera house tomorrow night.

### Politeness of Children.

The politeness of children is only skin deep. One cannot help sympathizing with the little London girl who said sleepily to her hostess at a party she had not been old enough to enjoy. "Please, will you tell me which is the lady what's giving this party, 'cause I promised nummy to say, 'Goodby, thank you very much for the nice party,' and I can't go home till I've said it, and—and I do so want to get away from this horrible place!" But one's whole heart goes out to the little boy who, having greatly enjoyed one small insufficient chocolate, was asked sharply, "Well, Johnny, what do you say?" "More," answered Johnny.

Daniel Sully, opera house tomorrow night.

## SIZE OF THE UNIVERSE.

Miles Are Too Insignificant to Be  
Used in Its Computation.

While it is interesting to know the distance of some of the stars in miles, when stated in that way the numbers are so large that they frequently convey very indistinct conceptions to the mind. For this reason it is customary to estimate stars' distances in "light years." A light year is the distance that light, moving at the rate of 186,300 miles per second, travels in one year. This amounts in round numbers to 5,880,000,000,000 miles. The distance of Alpha Centaur is 4.35 light years, that of Sirius, the dog star, is almost exactly twice as great, or 8.6 light years. In other words, light requires 8.6 years to come to us from Sirius. And these are among the very nearest of the stars. Some whose parallaxes have been rather estimated than measured appeared to be situated at a distance which light could not traverse in less than one or two centuries. The great star Arcturus, for instance, has, according to Dr. Elkin, a parallax of only eighteen-thousandths of a second. Its distance must in that case be about 181 light years, or more than a thousand million million miles. And if its distance is so great, then, since light varies inversely as the square of the distance from its source, it can be shown that Arcturus must actually give forth 5,000 or 6,000 times as much light as the sun yields.

Yet Arcturus is evidently much nearer than the vast majority of the stars are. Not one in a million is known to have a parallax large enough even to be intelligently guessed at. There may be stars whose light requires thousands instead of hundreds of years to cross the space separating them from us.

We thus see that only a few points on the nearer shores of the starry universe lie within reach of our measurements—here and there a jutting headland, while behind stretches the vast expanse over which the hundreds of millions of stars known to exist are scattered.

All women should strive to be beautiful. Beauty rules mankind. Hollister's Rocky Mountain Tea brings red lips, bright eyes and cream-like complexion. 35 cents, tea or tablets. H. P. Dunn & Co.

### Malignant.

Mrs. McCall—I do wish I could get a good maid. Mrs. Vandine—You might interview mine. I think she'd be delighted to go to you. Mrs. McCall—But why don't you keep her? Mrs. Vandine—Oh, she won't stay! She says she wants a place where she won't have so many dresses and hats to take care of. —Answers.

## Up-to-Date Hardware Store News

### "UMPIRE STATE" STOVES FOR WOOD

#### OUR CLAIMS FOR SUPERIORITY

Of these stoves over all others are based upon the following exclusively new features:

FIRST—Only Tamala air-tight that does not smoke and spit flames when top feed is opened, or puff, roar and explode while in operation.

SECOND—Jointless, corrugated, all cast iron bottom, having a pit of 6 inches deep, in which the fuel burns without any possibility of leakage.

THIRD—Perfect draft regulation and adjustment by means of our patent screw register in the oval air tight fitted ash door in the pit. The opening for this door is arranged so as to permit the easy and cleanly removal of the ashes, and avoid dust when door is open.

FOURTH—Mounted with lasting and heavy corrugated sheet steel of the highest quality.

FIFTH—Heat deflecting rings surrounding entire stove, and producing wonderful floor heating.

SIXTH—Cast-iron main top with two cooking holes in 24 and 28, and a supplementary swinging feed-top in 18 and 22.

SEVENTH—Check register in pipe collar.

EIGHTH—Handsomely nickel-plated foot rails, urn and nickel panel, knobs, screw register, and nickel swing top.

NINTH—Has cast-iron front, fitted with a circular 12 inch door for feeding.

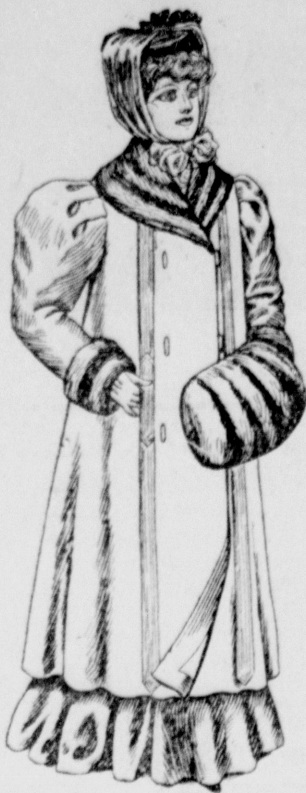

TENTH—Pipe collars made to receive inverted stove pipe, to avoid exterior leakage of creosote, which is inevitable in a thoroughly air-tight stove.

SLIPP-GRUENHAGEN CO.

217-219 South 7th Street.

## STILL GROWING

Demand for Mi-o-na Stomach Tablets Continues to Increase—Endorsed and Guaranteed by  
H. P. Dunn & Co.

Although Mi-o-na was introduced in Brainerd but a short time ago, it is today outselling all other medicines for the cure of indigestion and stomach troubles.

"Your money back if you want it," is the way in which H. P. Dunn & Co. are selling this popular remedy. This is an unusual plan, but Mi-o-na is so reliable in almost invariably curing all forms of indigestion and stomach troubles, except cancer, that they run but little risk in selling under a guarantee of this kind.

Mi-o-na gives such health and

strengthen to the weakest stomach that all the food is readily converted into nutrition, so that it gives nourishment and health to the whole system. In this way nervousness and sleeplessness are cured; headaches, backaches and rheumatic pains are prevented, and there will be no more poor appetite, distress after eating, heart-burn or debility.

Mi-o-na costs but 50 cents a box and H. P. Dunn & Co. will guarantee to refund the money if it does not cure. The risk is all theirs.

### THREE LIVES ARE LOST.

Breaking of Water Main in Chicago Causes Fatalities.

Chicago, Oct. 30.—Three lives were lost, property valued at \$150,000 was destroyed, scores of families were driven from their homes and freight traffic on the Nickel Plate railroad was delayed for several hours on account of the breaking of a water main at Eighteenth and Clark streets. The fatalities resulted indirectly from the flood which followed the bursting of the water pipe, inundating the neighborhood for several blocks. Two of the persons who lost their lives were overcome by gas in the Illinois tunnel at Eighteenth street and Armour avenue while attempting to ascertain if the flood had damaged the property of the company. The other death was the result of shock to an invalid, who awoke and found her room flooded with water. Several persons were injured in the flood while attempting to recover the bodies of the two men suffocated in the tunnel.

The dead are: Michael Barry, shaft superintendent of the Illinois Tunnel company; Patrick Barry, master mechanic of the tunnel company, both overcome by gas in the tunnel; Mrs. Lottie Hamlin, seventy years old, died as a result of the shock and exposure. The injured are: John Carey, overcome by gas, condition serious; Cyril

Maher, overcome by gas, condition serious; Joseph Lavincio, leg broken. Several other persons suffered minor injuries, while escaping from their homes in the flooded district.

So great was the force of the water that it escaped from the broken main that it was several hours before the stream could be stopped.

In the meantime several business blocks from Clark street to Twentieth street, including those on La Salle street, had been flooded. Many of these buildings have been undermined by the flow of water. Much damage was also done to the tracks of the Lake Shore and Michigan Southern railway.

### VESSEL A COMPLETE WRECK.

Spanish Authorities Give Up Hope of Saving Sunken Cruiser.

Ferrol, Spain, Oct. 30.—The naval authorities have given up hope of saving the armament and hull of the Spanish armored cruiser Cardinal Cisneros, which sank Saturday near Muros, Coruna, after striking a rock. The vessel is lying in a bad position in eighty feet of water. The ship disappeared in less than forty minutes and the entire complement of 540 men were rescued under difficult conditions by a steam trawler and several fishing smacks.

## FLOATING EXPOSITION

Our Goods to Be Displayed In World's Principal Ports.

### A NOVEL AMERICAN INVASION

Huge Craft, Loaded With Uncle Sam's Goods, to Make Sixty Thousand Mile Trip—Seventy-five Ports In Forty-six Different Countries Will Be Visited.

A floating exposition, carrying displays of the goods of American manufacturers to the principal ports of the world and establishing American trade where it has not yet a solid foothold, is the unique undertaking of the Export Shipping company of New York, says the Brooklyn Eagle. A big ocean steamship, fitted out especially for the purpose, is to leave New York about April 1 next year, its cargo a condensed American industrial exhibition, with a representative of each of the exhibitors on board, and sail around the world, circling continents and zigzagging across the oceans and seas to make island ports in all climates.

Seventy-five ports in forty-six different countries will be visited, and 60,000 miles will be traveled in fifteen months. The continents of Europe, Asia, Australia and South America and the coasts of Central America and the West Indies are included in the itinerary.

It is to be an American invasion in a most novel form. Extensive advertising is expected to bring together large numbers of the native merchants at the ports where the exposition drops anchor. Stops of from two to seven days will be made at the ports of the itinerary, giving the exhibitors' representatives plenty of time to show and explain their goods, quote prices, take orders and appoint local agents.

It is estimated that the cost of the floating exposition for the fifteen months will be \$840,000. The promoters figure out that at the rate they will get for the space there should be \$1,000,000 coming in. According to the plan outlined in their pamphlets, the balance of \$160,000 will be refunded to the exhibitors pro rata. The managers of the scheme say they do not expect to make a cent except to be benefited in the same way as the exhibitors. All money is to be paid into a Manhattan bank and by the bank disbursed only on certified and itemized vouchers which will be made public upon the request of any exhibitors. In other words, it is advertised as a mutual scheme for furthering the interests of the manufacturers participating.

Exhibit space on the ship will be sold for \$50 per square foot, and the minimum sold will be forty square feet, but several exhibitors may group their exhibits if they so desire, buying the space together. The representatives of the exhibitors on board will be boarded for \$1 a day. It has been carefully figured out that the cost to an exhibitor to thus show his goods to the many foreign markets to be invaded will not be over \$5 per day.

So that the exhibitors' representatives may be able to converse with the merchants in the ports where English is not spoken, instructors in German, French and Spanish will give free lessons in these languages during the time spent at sea. With a slight knowledge of these languages besides their own it is believed the representatives will be able to make themselves understood in any port visited.

The managers of the enterprise want as great a diversity of manufactured products as possible, and they want the most suitable in every line. It is announced that competition between exhibitors will be discouraged, although of course it is not expected that it can be entirely eliminated.

### CRUMBLING OF GIBRALTAR.

How the Famous Rock's Masses Have to Be Bound Together.

The public is not aware that the great rock of Gibraltar is tumbling down; that its crumbling, rotting masses must be continually bound together with huge patches of masonry and cement, says the Chicago Chronicle.

Yet they who sail past Gibraltar can not fail to notice on the eastern slope of the fortress enormous silver colored patches gleaming in the sun. These patches, in some cases thirty or forty feet square, are the proof of Gibraltar's disintegration. Of thick, strong cement, they keep huge spurs of the cliff's side from tumbling into the blue sea.

Sea captains cruising in the Mediterranean say that Gibraltar has been rotting and crumbling for many years, but that of late the disintegration has gone on at a faster rate than heretofore.

They say that the stone forming this imposing cliff is rotten stone and that in a little while the phrase, "The strength of Gibraltar," will be meaningless.

### Can't Remember Yours.

Physicians at Plainfield, N. J., are much puzzled over the case of Garrett T. Dunham, who was thrown from a trolley car several weeks ago, landing on his head. Mr. Dunham is now apparently as well as ever, except that he is unable to pronounce nouns. He has no difficulty with verbs, but when it comes to naming objects he is all at sea.

Mr. Dunham's case, according to an expert, is extremely rare—paralysis of the naming center. When a man's naming center is affected, if there be no other trouble, he can talk fluently, but is unable to name objects which he sees, feels or hears. His trouble is a form of sensory aphasia.

## DISCUSSING A CONSTITUTION.

Norwegian Storthing Holds a Session on the Subject.

Christiania, Oct. 30.—The storthing sat until a late hour at night discussing a constitution. M. Honow, the Radical leader, on behalf of the Republicans, declared that the government proposal for a plebiscite would diminish the respect held for the storthing's governmental responsibility.

Foreign Minister Loevald said a Republican constitution would be intrinsically as valuable as monarchical constitution, but he pointed out that Norway being a well established constitutional monarchy, generations of labor would be necessary to work out republican institutions. A continuance as a monarchy, he continued, would be the logical result of the policy of June 7 (when the storthing dissolved the union between Sweden and Norway) and that Norway's international position would be hazardous.

M. Arctand said the government would resign if this policy was defeated. Among those selected for ministerial posts abroad is H. C. Hauge, former secretary of legation for Norway and Sweden at Washington. The foreign office is pushing its work or organizing a consular service.

## JEALOUSY CAUSES TRAGEDY.

Iowa Gambler Fatally Shoots Another Man.

Dubuque, Ia., Oct. 30.—Maddened by jealousy, Will Clark, a gambler, shot Roy Sumner in the back, killing him almost instantly. The shooting occurred near a railroad station where Sumner and Mrs. Clark were bidding each other good bye. Mrs. Clark escaped by jumping into the cab of a passing engine. Clark says that he warned Sumner he would kill him if the couple ever met again.

### Sick Man Suffocated.

St. Paul, Oct. 30.—Walter Marmer, sick and unable to escape, was suffocated during a fire in his bed room at 2 p. m. Mrs. Marmer started a fire in her husband's room and placed some clothes near the stove to dry. They caught fire while she was away and the smoke suffocated Mr. Marmer before help arrived.

### TELEGRAPHIC BREVITIES.

President Loubet of France has concluded his visit to Portugal and has sailed for Marseilles.

Fire in the plant of the Michigan Malleable Iron company in Delray, Mich., caused \$50,000 damage.

Snow to a depth of three inches fell at St. Paul and vicinity Sunday, being the first snow storm of the season.

Former President Cleveland was the orator of the day at the unveiling of the monument to the late J. Sterling Morton at Nebraska City, Neb.

John Holberg, a tailor, was run down by a switch engine in the Omaha yards at St. Paul. His head was crushed out of resemblance and his neck was broken.

Frederick Hesketh, twenty-six years old, committed suicide at Minneapolis by shooting himself through the head with a revolver. The act was prompted by despondency brought on by illness.

### BREAKING ALL RECORDS.

Flagship West Virginia Making Fast Time.

United States Flagship West Virginia, off Savannah, Ga., Oct. 30.—A strong breeze from the northeast has kicked up a heavy sea, but notwithstanding these unfavorable circumstances the squadron has maintained an average speed of twenty knots from Jupiter Light to the present point, thus breaking all records for any squadron in our navy. During the morning the entire crew was mustered aft and President Roosevelt delivered a short address to them. The president has exchanged wireless messages with several mayors and governors.

### How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Take Hall's Family Pills for constipation.

Oldest and largest installment house in city. Goods sold on easy terms. D. M. Clark & Co. 241tf

### STILL GROUND FOR FRICTION.

But Critical Points in Fisheries Controversy Have Been Settled.

Washington, Oct. 2.—While the most critical points in the Newfoundland fisheries controversy apparently have been settled, a letter from Secretary Root to Secretary Shaw, just made public, points out there is still ground for possible friction and expresses a wish that pending negotiations now in progress, American fishermen and local officials avoid any precipitate action in the assertion of what they conceive to be their rights. The promulgation of the letter followed a conference between Secretary Root and Sir Mortimer Durand, the British ambassador.

D. M. Clark & Co., agents for Gillette safety razor.

### A Most Wonderful Cure.

Joseph D. Underhill, of Doland, S. Dakota, says: "I have received great benefit from your White Wine of Tar Syrup. I had a deep seated cough and the doctors gave up all hopes of my recovery and pronounced it consumption. I tried everything that we could hear of. Finally one of my friends prevailed upon me to use your White Wine of Tar Syrup. I used 1½ bottles and am entirely cured. Such medicine I can recommend to those who were afflicted as I was."

### LaGrippe Then Pneumonia

No remedy equals Warner's White Wine of Tar Syrup for these terrible and fatal diseases. If taken thoroughly and in time, it will cure a case in 48 hours, and for the cough that follows it never fails to give relief. Consumption Cure—Warner's White Wine of Tar Syrup, the best cough remedy on earth, cures a cold in one day if taken in time. 25 and 50 cents. Johnson's Pharmacy and H. P. Dunn & Co.'s.
